Summary

Computer Science undergraduate specializing in Cybersecurity with strong interest in **Artificial Intelligence and Machine Learning**. Experienced in building **real-world security tools and NLP-based systems**. Proficient in **Python, Linux, and AWS**. Seeking internship opportunities in **AI/ML, data analysis, and software development**.

Education

SR University

Expected 2027

B.Tech in Computer Science (Cybersecurity Specialization)

CGPA: 7.5/10

Skills

Programming: Python

Technologies: Linux, AWS (EC2, S3 - Basic)

Cybersecurity: Vulnerability Assessment, Network Security, Kali Linux

AI/ML: Machine Learning, NLP, Data Preprocessing, Model Evaluation

Web Development: HTML, CSS, Game Development

Internship Experience

Cybersecurity Virtual Intern — ShadowFox

2024

- Conducted **vulnerability assessments** in simulated environments, identifying potential security risks.
- Performed **network scanning and penetration testing** using Kali Linux tools.
- Analyzed **real-world attack scenarios** to improve system security awareness.

Projects

Cyber Threat Intelligence (CTI) Toolkit

2025

Developed a Python-based system for **USB monitoring, URL scanning, and malware detection**. Automated threat analysis, reducing manual inspection effort by **40%**. Generated structured security reports for **incident response and threat analysis**, and built a web dashboard to visualize **real-time threats and vulnerabilities**.

AI Resume Screening System

Designed an NLP-based model to **analyze and rank resumes** based on job descriptions. Extracted key features such as **skills, experience, and keywords** to improve matching accuracy, reducing manual screening time by approximately **30%**.

Fake News Detection System (Ongoing)

Built a machine learning model using **text classification and NLP techniques**. Applied **data preprocessing, TF-IDF, and feature engineering**, and improved classification performance through **model evaluation and tuning**.

Certifications

- Cisco Networking Academy — CCNA: Introduction to Networks (2024)
- ShadowFox — Cybersecurity Virtual Internship (2024)
- Eduskills — Ethical Hacking Internship (2024)
